-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 16 September 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Specification

1. The amendment filed 03 July 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: The connection of a display (12), a computer screen, an indicator, a warning light, etc. to the electronic unit 8 to indicate to the operator of the machine or the transmission that servicing of the machine or transmission is desired or necessary. Additionally, the addition of the "display 12" to the drawing figure is not supported by the original disclosure. Applicants' foreign priority document fails to indicate that a display 12 is utilized in the invention.

Applicants are required to cancel the new matter in the reply to this Office Action.

Claim Objections

2. Claim 20 is objected to because of the following informalities:

Re claim 20, claim line 1: This claim is depended from canceled claim 18.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 12, 13, 17, and 19 are allowed.

4. Claim 20 would be allowable if rewritten to overcome the objection, set forth in this Office action.

Response to Arguments

5. Applicants' arguments filed 16 September 2004 have been fully considered but they are not persuasive.

In response to applicants' argument that the preliminary amendment did not introduce new matter because the amendment was filed with the original application papers on the day the application was filed within the Patent Office, the examiner respectfully disagrees that this explanation is not the entire situation. The examiner agrees with applicants' assertion that the preliminary amendment was filed with the original application papers; however, the completion or non-completion of the oath or declaration with respect to the filing of the preliminary amendment also must be considered as well. In this instance, applicants presented an executed declaration with the originally filed papers. The declaration did not indicate that an amendment was accompanying the originally filed papers. The MPEP cites two clear situations as to how to treat preliminary amendments filed with the originally filed application. First, if an amendment is filed on the same day that the application under 35 CFR 1.53(b) is filed and referred to in the original oath or declaration with or after the application, the amendment constitutes a part of the original application papers and the question of new matter is not considered MPEP 602 V. Second, where a 37 CFR 1.53 (b) application is filed without a signed oath or declaration and the such application is accompanied by an

amendment, that amendment is considered a part of the original disclosure. The subsequently signed oath or declaration must refer to both the application and the amendment M.P.E.P 608.04(b).

Applicants' situation is neither of these situations. In the first situation, the amendment must be referred to in the signed oath or declaration. The applicants provided a signed declaration, but did not refer to the amendment being filed with the original application papers. In the second situation, if an oath or declaration has not been executed, then applicants may submit an supplemental oath or declaration referring to both the application and the amendment. Again, applicants submitted an executed declaration, so a supplemental declaration is not appropriate for this situation. Clearly, neither of these two situations apply to the situation in this application; therefore, it is the examiner's opinion that the preliminary amendment filed 03 July 2003 constitutes new matter.

Conclusion

THIS ACTION IS MADE FINAL. Applicants are reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2856

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
